# Bibliography of the Aynak copper deposit

The bibliography on the following pages is a comprehensive listing of the unpublished reports on the Aynak copper deposit held in the Afghanistan Geological Survey Archive. Most reports are specific to Aynak, but some cover the whole Kabul block, which includes Aynak as well as a number of other significant copper prospects and occurrences.

Most of the reports are written in Russian. For each report, the following information is provided in the bibliography:

- Report number
- Authors
- Date
- Title of the report
- Title of volume within a report
- A full itemised listing of the text and graphic annexes of the report

A full bibliographic listing of all the reports held by AGS is given in Appendix 1. The most important reports on Aynak are listed below:

## **Report 1131**

Akocdzhanyan L.A. et al. **1977**. Preliminary report on results of geological exploration of Aynak copper deposit in 1974-1976. Volumes 1-9 and supplementary volumes 1-3.

## **Report 1257**

Yashchinin S.B. et al. **1978**. Report on detail exploration of central part of Aynak copper deposit with evaluation to 1 April 1978. Volumes 1 to 9, volume 10 (parts 1-4).

## **Report 1278**

Zaycev V.N. et al. **1988**. Report on results of preliminary exploration of the western part of Aynak copper deposit with evaluation of reserves to 1.7.1987. Volumes 1-10.

## KEY GEOLOGICAL MAPS

### **Report 1278. Volume 7, items:**

1. Schematic geological map of the Central Kabul copper-ore region, 1:50 000
2. Stratigraphic column
3. Legend
4. Schematic geological map of Aynak copper deposit; 1:5 000.
5. Cross-sections and legend to the map of Aynak copper deposit; 1:5 000
