

MINERALS PRODUCED IN THE UNITED KINGDOM IN 2010

	Thousand tonnes
ENERGY MINERALS	
Coal: Deep-mined	7 390
Coal: Opencast	10 426
Coal: Other (a)	600
Oil: Onshore	941
Oil: Offshore	57 106
Gas: Onshore (oil equivalent)	88
Gas: Offshore (oil equivalent)	57 036
CONSTRUCTION MINERALS	
Aggregates	155 903
of which: Land-won sand & gravel	47 167
of which: Marine-dredged sand & gravel	14 533
of which: Crushed rock	94 203
Clay & shale for construction	769
Cement raw materials (limestone & chalk, clay & shale) (GB)	10 056
Clay & shale and Fireclay (for bricks) (GB)	3 788
Gypsum, natural (b)	1 700
Slate	695
Building (dimension) stone (GB)	2 100
INDUSTRIAL, AGRICULTURAL AND HORTICULTURAL MINERALS	
Limestone / dolomite / chalk (Industrial use) (GB)	6 764
Limestone / dolomite / chalk (Agricultural use) (GB)	1 795
Brine / Rock salt	6 666
Potash (refined potassium chloride)	700
Silica (Industrial) sands	4 070
Kaolin (china clay) (b)	1 000
Ball clay (b)	1 000
Fluorspar	26
Barytes	34
Peat (thousand m ³)	1 004
Other minerals (c)	4
UK Landmass	
	202 986
UK Continental Shelf	
	128 675
TOTAL	331 661

(a) Slurry etc. recovered from dumps, ponds, rivers etc.

(b) BGS estimate.

(c) Other minerals: calcspars, lead ore, iron ore, china stone, talc, and chert and flint.

GB: Figures for Great Britain only.
