The Co-ordinating Group for Environmental Radioactivity (COGER) is a voluntary association engaged in scientific research in the field of environmental radioactivity. COGER aims to provide coordination, exchange and dissemination opportunities within the field of environmental radioactivity, particularly in the UK, and is the main forum for environmental radioactivity research in the UK.

The 2015 Open Meeting will take place in the De La Beche Conference Suite at BGS Keyworth with catered accommodation in Ancaster Hall on the Main University Campus at the University of Nottingham. There is free parking at BGS Keyworth for the duration of the meeting and transport will be available between the two sites.

The COGER lecture will be presented on the evening of Wednesday 8th April by Dr Richard Shaw, BGS and NERC RATE Programme Executive Board.

Offers of papers are invited (20 minutes plus discussion). First year PhD students are encouraged to give a 10 minute presentation describing their planned research. Posters are also welcomed for display at a formal poster session and for the duration of the conference.

Abstracts (up to one page of A4) should be submitted electronically using the linked template obtainable from the cogersecretary@gmail.com by Friday 6th March 2015.

If you would like to attend, please complete the linked registration form by Friday 20th February 2015. Further details are available from: Dr Charles Gowing, British Geological Survey (cogersecretary@gmail.com or telephone 0115 936 3345).
