

Data Storage Manager (IRC245051)

UKRI- NERC BGS

Keyworth, Nottingham

£28,200 - £36,000 (depending on qualifications and experience)

Full time

Fixed Term until 31 March 2020

About Us

The British Geological Survey (BGS) is a partner organisation within UK Research and Innovation (UKRI). UKRI is a new entity that brings together nine partners to create an independent organisation with a strong voice for research and innovation and a vision to ensure the UK maintains its world-leading position in research and innovation.

The British Geological Survey (BGS), founded in 1835 is part of the Natural Environment Research Council (NERC) and is the world's longest-established national geological survey and the UK's premier centre for earth science information and expertise.

About the role

You will work on the UK GeoEnergy Observatories (UKGEO) project which is NERC's response to the UK Government's announcement in the 2014 Autumn Statement that it will allocate £31m to create world-class, subsurface energy research test centres, to be operated by the BGS.

You will primarily maintain and further develop disk and tape storage infrastructure, as well as associated procedures and controls within the UKGEO project. Reporting to the Lead Storage Administrator, and with the Backup and Archive administrator you will also manage disk and tape storage within the UKGEO project in line with existing protocols and procedures. Responsibilities will also include administration of data storage requirements for the project to include primary, secondary, backup and archive storage.

About you

You should have a degree or equivalent in an IT subject (substantial equivalent experience may be considered) together with in-depth technical knowledge of specific storage technologies (eg SANs, hybrid and hierarchal storage systems).

You should have critical attention to detail in all areas and the ability to write and maintain clear documentation and procedures. You should be approachable and have the ability to fit in with an established team, working in an open-plan environment.

What we offer

A generous benefits package is also offered, including a company pension scheme, childcare salary sacrifice scheme, 30 days annual leave plus 10.5 days public and privilege holidays.

How to Apply

Applicants are required to include a cover letter outlining their suitability for this role.

Applications are handled by UK Shared Business Services, to apply please visit our job board at http://www.topcareer.jobs/Vacancy/irc245051_8231.aspx Applicants who are unable to apply online should contact us by telephone on +44 (0)1793 867000.

The closing date for applications is 27 May 2018

The Natural Environment Research Council is an equal opportunities employer and welcomes applications from all sections of the community. People with disabilities and those from ethnic minorities are currently under-represented and their applications are particularly welcome. The British Geological Survey is an *Investors in People* organization and has achieved Bronze status for Athena Swan – a scheme that recognizes excellence in women's employment in science, technology, engineering, maths and medicine (STEMM) in UK higher education. There is a guaranteed Interview Scheme for suitable candidates with disabilities.
