CRITICAL MINERALS

KS2 worksheet 1: what are rocks, minerals and metals?

British
Geological
Survey

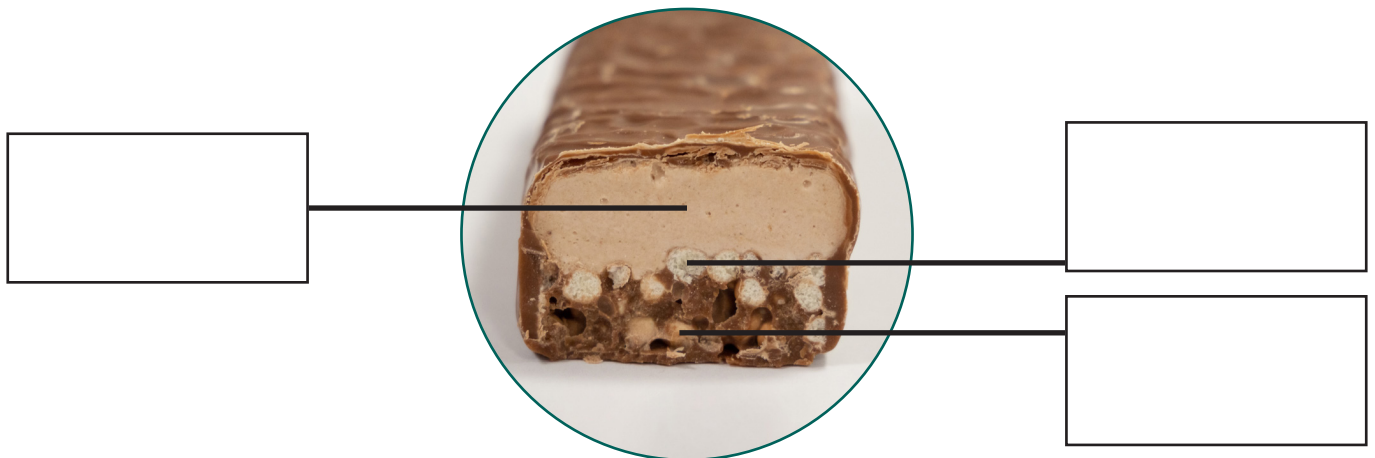

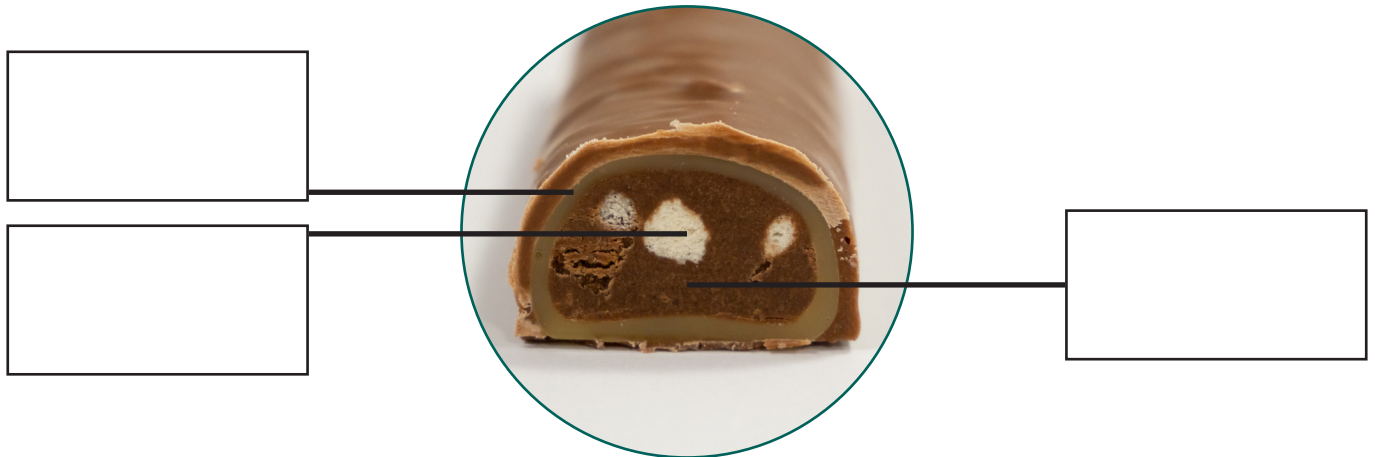

Department for
Business & Trade

What are rocks, minerals and metals?

Activity 1: chocolate minerals

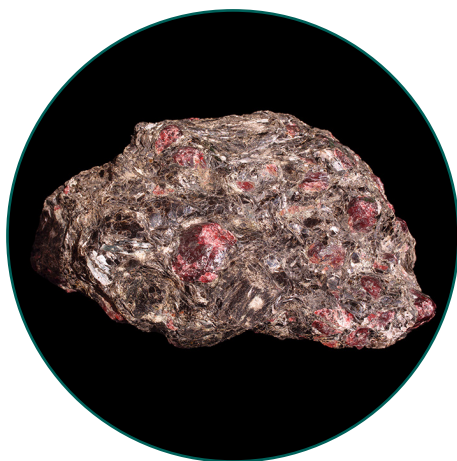

Part 1

Identify the key parts of the three chocolate bars shown. Which parts of the chocolate bar are the chocolate, caramel, biscuits, nuts or nougat?

Part 2

Using what we learnt in Part 1, circle where the different minerals are in each of the rocks shown.

Part 3

Using what we learnt in parts 1 and 2, match up the parts of the chocolate bar shown with the comparable rock.
