CRITICAL MINERALS

KS2 worksheet 2: what are rocks, minerals and metals?

British
Geological
Survey

Department for
Business & Trade

What are rocks, minerals and metals?

Activity 4

Colour in the countries that produce tungsten, for the filament in a lamp, on the blank world map. Colour in countries according to how much of the world's tungsten they produce.

Colour the countries that produce more than 10% in **green**, countries that produce 2 to 9% in **orange** and countries that produce less than 2% in **red**.

Country	Tungsten produced (MT)	Amount of total supply (%)
China	66,000	85.3
Vietnam	4,500	5.7
Russia	2,400	3
Bolivia	1,400	1.8
Rwanda	950	1.2
Austria	900	1.1
Spain	900	1.1

Total	79,000
