Mineral Resource Information for Sustainable Communities, Central Scotland

Project Outline

Hugh Barron

hfb@bgs.ac.uk
Background

• BGS compiled ‘County’ mineral resource maps for England - [www.bgs.ac.uk/mineralsuk](http://www.bgs.ac.uk/mineralsuk)

• would like to apply similar approach to Scotland

• asked by Scottish Executive to bid for 2007-08 Aggregate Levy fund

• Central Scotland Mineral Information bid one of five projects to be funded
Other 2007 - 08 Aggregate Levy awards

http://www.scotland.gov.uk/Topics/SustainableDevelopment/Aggregatesprojects2007-08

1. Sustainable Design in Architecture
To raise awareness of the need for a more considered design approach to our built environment based on the principles of sustainable development, and ensure that the momentum generated is not lost.

2. WRAP Recycled and secondary aggregates project
To address the barriers to greater use of recycled and secondary aggregates and, more broadly, promote the more sustainable use of materials by the construction industry.

3. National Industrial Symbiosis Programme, Scotland
Working with companies to implement emerging synergies in land reclamation, composting, paper recycling/ manufacture, cement manufacturing/ waste to energy, construction waste/ recycling plant.

4. "Planning for People" Programme –
Planning Aid for Scotland will continue in 2007 - 08 free independent and impartial advice on land use planning (with volunteer qualified planners) to help community groups and voluntary organisations understand the planning system and how it affects their environment.
Project Aims

….to enhance the sustainability of minerals resources in Central Scotland by providing information that is:

• comprehensive
• relevant
• accessible
• deliverable by March 2008

Leading to a better informed stakeholder community that is able to improve the effectiveness of planning and decision making on mineral issues through better quality engagement, consultation and debate.
Methodology

Four main phases:

1. Pilot study – GIS and maps for 2 local authority areas
2. Today’s consultation event and follow-up
3. Complete mineral resource mapping for rest of Central Belt authorities – presentation and data content based on results of today’s consultation
4. Dissemination event, early 2008 – for participants to decide
Project Area
Map grouping

Strategic Development Plan LA groups?

Edinburgh SDP
Glasgow SDP
