

**Expressions of interest for a participation in a geophysical acquisition project under the BGS National Geophysical Survey Scheme**

*Cover sheet*

Please use SI units (unless otherwise stated).

**Lead organisation (“Operator”)**

--

**Lead contact name and contact details**

Lead Organisation	Contact Name	Email	Address and telephone number

**Proposed acquisition area (geographical extent in UK National Grid coordinates) if possible please also provide a shape file**

**Map of survey area showing extent of survey (3D) or location of survey lines (2D)**

*Insert here (include scale, coordinates and north arrow)*

**Type of survey (3D seismic, 2D seismic, gravity, magnetic, other)**

--

**Purpose of survey (e.g. geothermal, oil and gas, groundwater, etc.)**

**Target depth(s) in metres**

**Additional information**

We request the following information, but please provide any other information that you may feel is relevant. There is a 10 page limit for all submissions.

Lead Organisation	Lead contact	Email	Address and telephone number
<b>Partners</b>			

\*Add rows as required

**Geophysical data acquisition and specification**

Please explain the type of geophysical survey you are proposing to acquire under the NGS scheme.  
e.g. 2D seismic survey, 3D seismic survey,

**Purpose of acquisition**

Please explain the reason for acquisition e.g. resource exploration

**Indicative geological target**

Please give indicative details of the intended geological target/s and approximate depth ranges

### **Geographical area of acquisition**

Please include:

- national grid coordinate references for the areas of interest
- maps showing the areas of interest
- relevant licence block information if relevant.

### **High level acquisition plan**

If possible please give an overview of potential survey design and acquisition plan.

### **Target acquisition date**

Please give an estimate of when you were expecting to collect geophysical data.

### **Data deliverables**

Please give details of the required data deliverables, specification and standards

### **Procurement strategy**

Please provide high level details of the proposed procurement strategy

### **Barriers, constraints and dependencies**

Give details of any potential barriers, constraints and dependencies in undertaking survey work in the proposed area.

### **Relevant content**

Please provide any additional information that you feel is relevant to this expression of interest

### **Cost of Participation**

*With this expression of interest I/we are indicating an in principle commitment to provide funding to undertake the National Geophysical Survey Scheme, subject to discussion and negotiation*

### **Confidentiality**

*BGS is mindful of the need for many commercial, industrial and other bodies to keep discussions, proposals, and associated materials confidential. It is therefore intended that when any discussions, meetings or business relationships are formed, due regard will be given to ensuring appropriate legal agreements are in place to protect information, materials and communications, which are part of any National Geological Survey process or survey. BGS is subject to freedom of information legislation and may be required in exceptional cases to grant access to information when it is deemed in the public interest. However in the unusual case this does happen, BGS will make, where appropriate attempts to use the exceptions to disclosure provided by law and will keep all parties informed where any request is made and/or disclosure takes place.*

Please email expressions of interest to [BGSgeophysurvey@bgs.ac.uk](mailto:BGSgeophysurvey@bgs.ac.uk) by 17.00 04/07/16
